

Your Friendly Electric Servant
DAHLBERG LIGHT & POWER COMPANY
9221 East Main • P.O. Box 300 • Solon Springs, Wisconsin 54873-0300 • Telephone 715-378-2205 • Fax 715-378-2505 • 1-800-736-5167

Dear Customer,

Thank you for your inquiry into controlled water and dual fuel heating services. Such water heaters and heating systems shall be controlled by the company and are allowed to operate only during off-peak periods. Customers served on this rate are required to have a separate meter socket and radio control system. All of this hardware is the financial responsibility of the customer and will be paid for in advance of delivery or pickup.

We now have radio controls for our off-peak heat and water heat customers. There is an installation charge for these controls but we own and completely maintain them. With the radio controls, off-peak service is available during some daytime hours too, whenever our demand is low. The dual fuel and off-peak water heating services are available from 9:00 PM to 9:00 AM daily and available other times when the cost of power is low.

Dahlberg Light & Power Company requires an Interruptible Electric Service Agreement be returned to our office, signed and notarized, before off-peak equipment can be installed.

Al Visger is our off-peak service specialist and can help you if you have any questions. He can be reached at 800-736-5167 Ext: 117 Monday – Friday from 8:15 to 9:00 AM. During any other time feel free to contact our new-service department at Ext. 125. Thank You.

Sincerely,

Dahlberg Light & Power Co.
